Forward Looking Statement and Explanatory Note

Statements contained in this presentation regarding the growth and prospects of the business, the Company's projected 2024 financial results, long-term objectives and all other statements in this presentation other than recitation of historical facts are forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements involve known and unknown risks, estimates, uncertainties and other factors that may cause actual results to be materially different. Such factors include, but are not limited to, the following: the impact of general economic conditions, including inflation (and related monetary policy by governments in response to inflation), on economic activity and our operations; changes in macroeconomic and market conditions and market volatility, including interest rates and the effect on the credit markets and access to capital; the impact of global economic and geopolitical conditions, including inflation, and recession; our ability to carry out our strategic initiatives and manage associated costs; our ability to recover potential claims under our event cancellation insurance; the timing of conferences and meetings, in particular our Gartner Symposium/Xpo series that normally occurs during the fourth quarter; our ability to achieve and effectively manage growth, including our ability to integrate our acquisitions and consummate and integrate future acquisitions; our ability to pay our debt obligations; our ability to maintain and expand our products and services; our ability to expand or retain our customer base; our ability to grow or sustain revenue from individual customers; our ability to attract and retain a professional staff of research analysts and consultants as well as experienced sales personnel upon whom we are dependent, especially in light of labor competition; our ability to achieve continued customer renewals and achieve new contract value, backlog and deferred revenue growth in light of competitive pressures; our ability to successfully compete with existing competitors and potential new competitors; our ability to enforce and protect our intellectual property rights; our ability to keep pace with technological developments in artificial intelligence; additional risks associated with international operations, including foreign currency fluctuations; the impact on our business resulting from changes in international conditions, including those resulting from the conflict in the Middle East, the war in Ukraine and current and future sanctions imposed by governments or other authorities; the impact of restructuring and other charges on our businesses and operations; cybersecurity incidents; risks associated with the creditworthiness, budget cuts, and shutdown of governments and agencies; our ability to meet ESG commitments; the impact of changes in tax policy (including global minimum tax legislation) and heightened scrutiny from various taxing authorities globally; changes to laws and regulations; and other risks and uncertainties described under "Risk Factors" in our most recent Annual Report on Form 10-K. Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Non-GAAP financial measures such as Adj. EBITDA, Adj. EBITDA Margin, Adj. Net Income, Adj. EPS and Free Cash Flow, as included in this presentation, are supplemental measures that are not calculated in accordance with U.S. GAAP. Definitions of these measures and reconciliations to the most-directly comparable GAAP measures are included in the appendix.

Unless otherwise indicated, or the content otherwise requires, all percentages indicated in this presentation are year-over-year growth rates.

The Company's SEC filings can be found on Gartner's website at investor.gartner.com and on the SEC's website at www.sec.gov. Forward looking statements included herein speak only as of February 6, 2024 and the Company disclaims any obligation to revise or update such statements to reflect events or circumstances after this date or to reflect the occurrence of unanticipated events or circumstances, except as required by applicable law or regulation.

Capital Structure and Allocation

Capital Structure

- · Optimizes financial leverage benefits and financial flexibility
- Target 2-2.5x leverage¹
- ~\$200M cash is needed to run the business

Free Cash Flow deployment

- Expect to offset equity dilution
- · Opportunistic, price sensitive stock repurchases
- Strategic value-enhancing tuck-in acquisitions
- · No current plans for material debt repayments

Our typical Adjusted EBITDA margin to Free Cash Flow margin conversion is about 4-6 percentage points.

Our typical Free Cash Flow conversion from GAAP Net Income is around 140-160%.

As contract value accelerates, the conversion will move toward the higher end of the range.

Note: Includes insurance proceeds and cash taxes on gain on sale of divested operation, as applicable, which can materially affect the conversion rates.

* Consists of direct and incremental expenses related to acquisitions and divestitures, impairment loss for lease related assets, facility-related exit costs and other non-recurring items.

Adjusted EBITDA and Adjusted EBITDA Margin: Represents GAAP net income (loss) adjusted for: (i) interest expense, net; (ii) tax provision (benefit); (iii) gain on event cancellation insurance claims, as applicable; (iv) gain/loss on divestitures, as applicable; (v) other (income) expense, net; (vi) stock-based compensation expense; (vii) depreciation, amortization, and accretion; (viii) loss on impairment of lease related assets, as applicable; and (ix) acquisition and integration charges and certain other non-recurring items. Adjusted EBITDA Margin represents Adjusted EBITDA divided by GAAP Revenue. We believe Adjusted EBITDA and Adjusted EBITDA Margin are important measures of our recurring operations as they exclude items not representative of our core operating results.

Adjusted Net Income: Represents GAAP net income (loss) adjusted for the impact of certain items directly related to acquisitions and other non-recurring items. These adjustments include: (i) the amortization of acquired intangibles; (ii) acquisition and integration charges and other non-recurring items; (iii) gain on event cancellation insurance claims, as applicable; (iv) gain/loss on divestitures, as applicable; (v) loss on impairment of lease related assets, as applicable; (vi) the non-cash (gain) loss on de-designated interest rate swaps, as applicable; and (vii) the related tax effect. We believe Adjusted Net Income is an important measure of our recurring operations as it excludes items that may not be indicative of our core operating results.

Adjusted EPS: Represents GAAP diluted EPS adjusted for the impact of certain items directly related to acquisitions and other non-recurring items. These adjustments include on a per share basis: (i) the amortization of acquired intangibles; (ii) acquisition and integration charges and other non-recurring items; (iii) gain on event cancellation insurance claims, as applicable; (iv) gain/loss on divestitures, as applicable; (v) loss on impairment of lease related assets, as applicable; (vi) the non-cash (gain) loss on de-designated interest rate swaps, as applicable; and (vii) the related tax effect. We believe Adjusted EPS is an important measure of our recurring operations as it excludes items that may not be indicative of our core operating results.

Free Cash Flow: Represents cash provided by operating activities determined in accordance with GAAP less payments for capital expenditures. We believe Free Cash Flow is an important measure of the recurring cash generated by the Company's core operations that may be available to be used to repay debt obligations, repurchase our stock, invest in future growth through new business development activities, or make acquisitions.

Foreign Currency Neutral (FX Neutral): We provide foreign currency neutral dollar amounts and percentages for our contract values, revenues, certain expenses, and other metrics. These foreign currency neutral dollar amounts and percentages eliminate the effects of exchange rate fluctuations and thus provide a more accurate and meaningful trend in the underlying data being measured. We calculate foreign currency neutral dollar amounts by converting the underlying amounts in local currency for different periods into U.S. dollars by applying the same foreign exchange rates to all periods presented.

Non-GAAP Interest: Interest expense, net excluding amortization of certain deferred financing fees.

Business Measurements

Contract value represents the dollar value attributable to all of our subscription-related contracts. It is calculated as the annualized value of all contracts in effect at a specific point in time, without regard to the duration of the contract. Contract value primarily includes Research deliverables for which revenue is recognized on a ratable basis, as well as other deliverables (primarily Conferences tickets) for which revenue is recognized when the deliverable is utilized. Comparing contract value year-over-year not only measures the short-term growth of our business, but also signals the long-term health of our Research subscription business since it measures revenue that is highly likely to recur over a multi-year period. Our contract value consists of Global Technology Sales contract value, which includes sales to users and providers of technology, and Global Business Sales contract value, which includes sales to all other functional leaders.

Client retention rate represents a measure of client satisfaction and renewed business relationships at a specific point in time. Client retention is calculated on a percentage basis by dividing our current clients, who were also clients a year ago, by all clients from a year ago. Client retention is calculated at an enterprise level, which represents a single company or customer.

Wallet retention rate represents a measure of the amount of contract value we have retained with clients over a twelve-month period. Wallet retention is calculated on a percentage basis by dividing the contract value of our current clients, who were also clients a year ago, by the contract value from a year ago, excluding the impact of foreign currency exchange. When wallet retention exceeds client retention, it is an indication of retention of higher-spending clients, or increased spending by retained clients, or both. Wallet retention is calculated at an enterprise level, which represents a single company or customer.

Conference Number of destination conferences represents the total number of hosted virtual or in-person conferences completed during the period. Single day, local meetings are excluded.

Number of destination attendees represents the total number of people who attend virtual or in-person conferences. Single day, local meetings are excluded.

Consulting Consulting backlog represents future revenue to be derived from in-process consulting and benchmark analytics engagements.

Utilization rate represents a measure of productivity of our consultants. Utilization rates are calculated for billable headcount on a percentage basis by dividing total hours billed by total hours available to bill.
