## FORWARD-LOOKING STATEMENTS

Statements contained in this press release regarding the Company's growth and prospects, projected financial results, long-term objectives, and all other statements in this release other than recitation of historical facts are forward-looking statements within the meaning of Section 27A of the Securities Exchange Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements involve known and unknown risks, estimates, uncertainties and other factors that may cause actual results to be materially different. Such factors include, but are not limited to, the following: our ability to maintain and expand our products and services; our ability to keep pace with technological developments in artificial intelligence ("AI") and comply with evolving AI regulations; our ability to achieve continued customer renewals and achieve new contract value, backlog and deferred revenue growth in light of competitive pressures; our ability to grow or sustain revenue from individual customers; our ability to expand or retain our customer base; our ability to carry out our strategic initiatives and manage associated costs; the timing of conferences and meetings, in particular our Gartner Symposium/Xpo series; our ability to achieve and effectively manage growth, including our ability to integrate our acquisitions and consummate and integrate future acquisitions; our ability to attract and retain a professional staff of analysts and consultants as well as experienced sales personnel upon whom we are dependent, especially in light of labor competition; our ability to successfully compete with existing competitors and potential new competitors; our ability to enforce and protect our intellectual property rights; the impact of cybersecurity incidents or other disruptions to our information systems; our ability to pay our debt obligations; the impact of global economic and geopolitical conditions, including inflation (and related monetary policy by governments in response to inflation) and recession; uncertain effects, both direct and indirect, of changes and volatility in tariffs and trade policies; risks associated with the creditworthiness, budget cuts, priorities and shutdown of governments and agencies; additional risks associated with international operations, including foreign currency fluctuations; the impact on our business resulting from changes in international conditions, including those resulting from tensions in the Middle East, the war in Ukraine and current and future sanctions imposed by governments or other authorities; the impact of restructuring and other charges on our businesses and operations; our ability to meet sustainability commitments and comply with applicable regulatory requirements, as well as potential reactions by customers to these commitments; the impact of changes in tax policy (including global minimum tax legislation) and heightened scrutiny from various taxing authorities globally; changes to laws and regulations; and other risks and uncertainties described under "Risk Factors" in our most recent Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, which can be found on Gartner's website at <https://investor.gartner.com> and the SEC's website at [www.sec.gov](http://www.sec.gov). Forward-looking statements included herein speak only as of the date hereof and Gartner disclaims any obligation to revise or update such statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events or circumstances, except as required by applicable law.

## NON-GAAP FINANCIAL MEASURES

Certain financial measures used in this Press Release are not defined by U.S. generally accepted accounting principles (“GAAP”) and as such are considered non-GAAP financial measures. We provide these measures to enhance the user’s overall understanding of the Company’s current financial performance and the Company’s prospects for the future. Investors are cautioned that these non-GAAP financial measures may not be defined in the same manner by other companies and, as a result, may not be comparable to other similarly titled measures used by other companies. Also, these non-GAAP financial measures should not be construed as alternatives, or superior, to other measures determined in accordance with GAAP. The non-GAAP financial measures used in this Press Release are defined below.

**Adjusted Revenues:** Represents GAAP revenues less revenues from our Digital Markets divested operation. We believe Adjusted Revenues is an important measure of our recurring operations as it provides a more accurate period-over period comparison of trends in revenues.

**Adjusted EBITDA and Adjusted EBITDA Margin:** Represents GAAP net income (loss) adjusted for: (i) interest expense, net; (ii) tax provision (benefit); (iii) gain on event cancellation insurance claims, as applicable; (iv) other (income) expense, net; (v) stock-based compensation expense; (vi) depreciation, amortization, and accretion; (vii) goodwill impairment and other asset impairments, as applicable, (viii) workforce reduction expenses and certain other non-recurring items and (iv) gain/loss on divestitures, as applicable. Adjusted EBITDA Margin represents Adjusted EBITDA divided by GAAP Revenue. We believe Adjusted EBITDA and Adjusted EBITDA Margin are important measures of our recurring operations as they exclude items not representative of our core operating results.

**Adjusted EBITDA Excluding Divested Operation and Adjusted EBITDA Margin Excluding Divested Operation:** Represents Adjusted EBITDA as defined above less EBITDA from our Digital Markets divested operation. Adjusted EBITDA Margin Excluding Divested Operation represents Adjusted EBITDA Excluding Divested Operation divided by Adjusted Revenue. We believe Adjusted EBITDA Excluding Divested Operation and Adjusted EBITDA Margin Excluding Divested Operation are important measures of our recurring operations as it provides a more accurate and consistent period-over period comparison of our results.

**Adjusted Net Income and Adjusted EPS:** Represents GAAP net income (loss) and diluted net income (loss) per share adjusted for the impact of certain items directly related to acquisitions and other non-recurring items. These adjustments include (on a per share basis, in the case of Adjusted EPS): (i) the amortization of acquired intangibles\*; (ii) workforce reduction expenses and other non-recurring items; (iii) gain on event cancellation insurance claims, as applicable; (iv) the non-cash (gain) loss on de-designated interest rate swaps, as applicable; (v) goodwill impairment and other asset impairments, as applicable, (vi) gain/loss on divestitures, as applicable, and (vii) the related tax effect. We believe Adjusted Net Income and Adjusted EPS are important measures of our recurring operations as they exclude items that may not be indicative of our core operating results.

\* The Company excludes amortization of acquired intangibles because it is generally a fixed non-cash expense that can be significantly impacted by the timing and/or size of acquisitions and management does not use it to evaluate core operating results. Although the Company excludes the amortization of acquired intangibles from Adjusted Net Income and Adjusted EPS, management believes that it is important for investors to understand that such intangible assets were recorded as part of acquisition accounting and contribute to revenue generation.

**Free Cash Flow:** Represents cash provided by operating activities determined in accordance with GAAP less payments for capital expenditures. We believe Free Cash Flow is an important measure of the recurring cash generated by the Company’s core operations that may be available to be used to repay debt obligations, repurchase our stock, invest in future growth through new business development activities, or make acquisitions.

**Foreign Currency Neutral (FX Neutral):** We provide foreign currency neutral dollar amounts and percentages for our contract values, revenues, certain expenses, and other metrics. These foreign currency neutral dollar amounts and percentages eliminate the effects of exchange rate fluctuations and thus provide a more accurate and meaningful trend in the underlying data being measured. We calculate foreign currency neutral dollar amounts by converting the underlying amounts in local currency for different periods into U.S. dollars by applying the same foreign exchange rates to all periods presented.
